Dec 2018 - Jul 2020

Sr. Software Engineer

Unimoni Enterprise Solutions Ltd. (Airoli)

As a Sr. Software Engineer, contributed to development of '**Remit2India**', international money transfer platform, implementing secure payment systems and streamlined KYC workflows while ensuring compliance with global financial regulations

- Enhanced the app's UI to elevate the overall user experience, strongly focusing on improving usability and accessibility.
- Optimized the customer onboarding journey by streamlining KYC processes to ensure a seamless and hassle-free experience.
- Developed essential features such as beneficiary management and remittance functionality to enhance the app's core capabilities.
- Implemented seamless bank account addition features, enabling users to link their accounts for a smoother transaction experience effortlessly.

Play Store: <https://play.google.com/store/apps/details?id=com.remit2india.app>

Mar 2018 - Nov 2018

Android Developer

MITS Global Technologies Pvt. Ltd.(Mumbai)

As an Android Developer for Angel Broking, enhanced the in-house '**DKYC - Trading Account Opening App**', streamlining user onboarding and trading account setup for associates.

- Developed the in-house 'DKYC' app, enabling seamless trading account opening with form submission, e-signature, and document uploads (PAN, Aadhaar, Bank Statements, etc.).
- Led UI design for seamless onboarding, integrated Mantra biometrics for secure authentication, and NSDL library for Aadhaar verification, ensuring compliance.

May 2016 - Feb 2018

Android Developer

Cnergee Technologies Pvt. Ltd. (CBD Belapur)

As an Android Developer, successfully designed and developed **'MyApp'** from scratch for local ISPs, enabling users to track internet usage, explore plans, and view transactions.

- Developed MyApp for local ISPs, enabling users to track usage, renew, or upgrade plans.
- Integrated a pie chart for visualizing internet consumption.
- Added a payment gateway for seamless plan renewals and upgrades.
- Enabled transaction history access, invoice downloads, and complaint registration.
- Introduced a Help Center with FAQs for better user support.
- Implemented a cash pickup service for convenient offline payments.
